# Senior Software Engineer-Blockchain Technologies
## PolicyPal-Singapore

## About our Client

PolicyPal is a licensed insurance broker in Singapore, allowing individuals to buy, manage and optimize their insurance policies through their mobile application. PolicyPal started in 2016, and have had a successful first year, winning numerous awards, and already have over 32.000 users, growing fast daily. They are the first ever graduate from the MAS fintech regulatory sandbox, and are part of the Paypal incubation program. PolicyPal is a network platform built with a twofold vision of addressing key issues that overlap the fields of both insurance and crypto assets.

## Requirements

The ideal candidate has:

- At least 3 years of relevant experience in software engineering
- Knowledge of data encryption and security
- Experience in designing and deploying database systems
- Experience building scalable software on your own from the ground up
- Get-It-Done mentality - From setting up AWS servers to debugging live with clients, take ownership of issues and move 'em
- Resourcefulness and commitment to do whatever it takes to get the job done
- An eye for detail and comfortable articulating your thoughts and decisions
- Works hard but loves to share a laugh and wants to build a fun work culture
- Fintech/ Insurtech experience

The technology you will be working with at PolicyPal is: React Native, React.js, GoLang, CSS, SASS, Solidity and Smart Contracts. If you have experience in any of these it would be a big benefit. Training is given to get you up to speed in developing on blockchain technology, and writing smart contracts using Solidity.

## Benefits

This is an opportunity to join a fast growing company developing on blockchain technology, and full training is given on these technologies. What PolicyPal are looking for are very bright and ambitious engineers, that want to learn Solidity/Smart contracts, and can build scalable software from the ground up.

## Application process

Please apply by sending your CV to Christian Payne, Blockchain Recruiter at Code Resourcing (email: cp@coderesourcing.com), who is handling the recruitment process on behalf of PolicyPal. The process will consist of a first interview with us at Code Resourcing, after which we will arrange the interview process with PolicyPal.

Address: Business Centre Winghouse, Ørestads Boulevard 73, 2300 Copenhagen S, Denmark
